

Playback, Formerly Cablecast:

It has been a rough, but promising transition for the old Cablecast Department of BNN, but bear with us producers as we continue to get on track and grow our services. Here's some info you will need to know:

1. We've changed our name the old Cablecast is now the new Playback Department.
2. We've changed our playback system. Our new system improves quality and responsiveness, but we are still working out the bugs so bear with us Boston.
3. Our policies are changing and for playback these policies will go into effect in the Spring Quarter beginning April 1st.
4. It is very important that active producers submit there shows at least 48 hours prior to airing (and by Thursday for shows on the weekend, Friday for shows to air on Monday). Exceptions must be made in advance.
5. We've been working hard to bring everyone up to speed, please check this site often for new forms, new announcements and keep watching BNN.
6. If you have any questions please write to us at programming@bnntv.org or call 617-708-3220

Show Renewals.

1. Due to issues we've had with transition to our new playback system all current series with an active BNN member are invited back for the winter quarter ending March 31st of 2008.
2. All current producers and those requesting new series slots will need to complete our new renewal applications by March 17th for the Spring Quarter.
3. We will make every attempt to honor series and single submissions that have not played over the winter and spring quarter.
4. Sponsors of outside programming must understand that all correspondence about their sponsored shows must come from the BNN Member Sponsors and not the producer of the show. BNN appreciates the diverse programs and important viewpoints that our members wish to express, but our mission is to foster community through communication and not syndication.

Check back for our new forms.
